Created by real editors, the category list is frequently updated.

### Hydril Bop Manual

This manual contains the information necessary to operate and maintain the Hydril GK 11"-5000 PSI Annular Blowout Preventer (ABOP).

### Hydril - Gk Bop | Blowout (Well Drilling) | Screw

The packing unit for the GK annular BOP can hold full-rated working pressure and will close on an open hole. Before shipment, each packing unit is factory tested in a BOP - to 50% of working pressure on open hole and 1000% on pipe. The GK provides longer life when using genuine Hydril Pressure Control packing Units, as shown in repeat testing.

### GK Annular Blowout Preventer - Tasman Oil Tools

Our API 16A hydril annular BOP can be used in work over and drilling operations equipped with hydril control systems. The BOPs are designed and manufactured in full conformity to the API 16A standard. The annular BOP mainly consists of a body, a header, a rubber core, and a piston. The inner rubber core is interchangeable.

### API 16A manual annular bop - CNPS

If a BOP stack is assembled with a blind or blind shear ram and two sets of HVRs, the HVRs will seal over the BOP's complete range providing the backup seal-off capability needed on a tapered string. Our Hydril Pressure Control variable ram is therefore ideally suited to subsea use by expanding the seal-off capability of each cavity within a BOP.

### GE Oil & Gas Drilling & Production

Common in design, this manual is applicable for the procedure and maintenance of all GK 11-5000 ABOPsmanufactured by Hydril. The illustrations of assemblies and procedure and servicing processes in this manualare regular and represent many configurations.
