The Verbal Behavior Milestones and Placement Program (VB-MAPP) is one of the most frequently used tools to assess individuals with Autism and other developmental disorders. It is something that we use in our practice here at ThinkPsych on a weekly, if not daily, basis. So what is it? Well, the VB-MAPP is a criterion-referenced tool. That means that individuals are scored according to some sort of criterion, which in this case, was developed based on observations and testing of typically ...
