grade-level understanding. In this document, each standard is connected to a component idea within the framework, where further context can be found. Additionally, suggestions are made to link each standard to an applicable crosscutting concept and science and engineering practice. Suggestions for Use This guide should act as a reference document.

Tennessee Department of Education | January 2018

The Next Generation Science Standards (NGSS) are K-12 science content standards. Standards set the expectations for what students should know and be able to do. The NGSS were developed by states to improve science education for all students. A goal for developing the NGSS was to create a set of research-based, up-to-date K-12 science standards.

Next Generation Science Standards

The Next Generation Science Standards (NGSS) were released by Achieve on April 9, 2013. The structure of Ohio's Learning Standards for Science is significantly different from NGSS, but the research that provided the framework from which each were developed is the same.
