The New Financial Order proposes a radically new risk management infrastructure to help secure

the wealth of nations: to preserve the billions of minor—and not so minor—economic gains that sustain people around the world. Most of these gains seldom make the news or even evoke much public discussion, but they can enrich hard-won economic

The New Financial Order

New Financial's latest report looks for the first time at what asset owners (such as pension funds, insurers and sovereign wealth funds) are doing on the diversity front. We analysed 100 asset owners globally with combined assets of \$8 trillion to find out why and how they are approaching diversity - and how this affects asset managers.
