Golf Cart Insurance | How to Insure a Golf Cart | The Hartford

The most important factor when buying a shaft is the flex because it affects your distance and direction. In essence flex is the ability of a golf shaft to bend during the golf swing. For example if you have a slow golf swing then you need a shaft with greater flex, and vice versa if your swing is extremely fast then you need a (Extra Stiff) shaft.

Choosing the Right Shaft - The Golf Guide

Golf is a game of numbers. From counting strokes and measuring swing speed to countless hours of practice, there is a lot of data to process. But there is one number on a lot of golfers minds that they don't need to worry about: golf ball compression ratings. Back in the day of wound and liquid core golf balls, compression ratings were important.
